

EARTH'S CALL

FUNDING INNOVATIVE SOLUTIONS THAT HEAL OUR PLANET

Harmonizing the Future

Aspen, May 19, 2019

Harmonizing the Future features a full-day of specially curated environmentally-focused events for guests including topical breakout sessions, panel discussions, nature activities, musical performances and more.

Attendees will have unique opportunities to learn from and interact with some of the world's foremost experts and thought leaders on co-creating a flourishing future.

Earth's Call and Harmonizing the Future are committed to the UN Sustainable Development Goals and Youth Activism to find solutions to the Climate Crisis.

OPENING CEREMONY

The State Of Youth

Greenwald Pavillion

9:00 am - 10:00 am

You are invited to our opening presentation focused on amplifying the vital voice of our youth. Welcomed by our guest youth leaders, "State of the Youth" will inform, uplift and energize, readying attendees for a dynamic day of programming at Harmonizing the Future. Hear from young leaders who are working at the cross section of environmental protection, social justice and human rights. Enjoy live performances by the Compton Kidz Club joined by a local choral ensemble and share in an opening indigenous prayer.

Indigenous Youth Performers	International Indigenous Youth Council
Compton Kidz Club	Choral Group -Directed by Fred Martin - Urban Entertainment

Conversation with Cecilia Conrad, President 'Lever for Change'

SESSIONS

Planet 911 - Youth Breakout Group

Greenwald Pavillion

10:15 am - 12:00 pm

Earth's Call is partnering with Planet 911, an international call to action to youth across the world using film, arts, music and media, & Earth Guardians, as a way to protect the planet to engage our youth cohort during an interactive session. This non-partisan interactive session will be goal and outcome orientated (i.e. post follow on project) in order to engage and mobilize already informed youth delegate. The intended outcome of this is to gather a consensus of what call to action/project they will work on over preceding 6 months.

Session Contributors/Facilitators:

Kathy Eldon	Author, Activist and Founder of Creative Visions Foundation
Lora O'Connor	Producer, Creative Visions Foundation
Compton Kidz Club	Performers

Earth Guardians	Performers and Activists
Future Coalition	Coalition of youth led organizations focused on Social Change
Sunrise Movement	Youth Activist
International Indigenous Youth Council	Indigenous Youth Activists
Johnny Keach	Performer

Target 2030

Paepcke Auditorium

10:15 am - 11:15 am

As we reach the tipping point of the climate crisis, how are we to redirect ourselves and the planet? This dynamic session will explore new and existing pathways to determine how best to move forward. Are we on our way to achieving *The Sustainable Development Goals (SDGs)*. Award winning investigative reporter, **Roberta Baskin**, will host this dynamic panel comprised of multidisciplinary global leaders in climate action from business, government and civil society. These leaders, dedicated to achieving the critical SDGs and supporting the green economy, invite each of you to join the Global Goals movement as transformational catalysts, contributors and influencers.

Moderator: Roberta Baskin

Session Contributors:

Tom Steyer	Founder, NextGen America
Caryl Stern	CEO, UNICEF USA
Bart Houlahan	Co-founder of B Lab, B Corp Movement
Tommy Tjipadjaja	CEO, Green Hope in Jakarta

“Innovations That Matter”

Paepcke Auditorium

11:45 am - 12:45 pm

Innovations in technology and solutions are moving faster than ever. New ideas are accelerating change and reshaping our approach to the climate crisis. Hosted by **Toby Redshaw**, Verizon’s SVP 5G Ecosystems, Innovation, AR/VR, Location Based Services, Product Development, this panel will explore the power of tech, creativity and innovation in unlocking economic value and drive for positive impact for sustainability and climate change.

Moderator:

Toby Redshaw Verizon’s SVP 5G Ecosystems, Innovation, AR/VR

Session Contributors:

Lt Col Jen Snow	SOFWERX
Steven Haft	Head of Global Partnerships at CONSENSYS
Asa Tamsons	SVP Tech and New Biz at Ericsson

Gender & Climate: “Accelerating Women's Empowerment to Answer Earth's Call”

Lauder Seminar Room

Koch Seminar Building

11:45 am - 12:45 pm

Climate change is a threat burdening all of humanity, but not equally. With the majority of the world’s poor being women, the distinct impacts of climate change on men and women are heightened in settings that are also affected by conflict, political uncertainty, and economic struggle. However, what is not always understood is the phenomenal impact women and girls can have on mitigating and reversing climate change. Women and girls are pivotal to addressing global warming successfully and to humanity’s overall resilience, equity is good for all. This panel will seek to elevate the conversation and stimulate more investment in women and girls.

Moderator:

Kim Coupounas

Global Ambassador, B Lab, B Corp Women CEOs Build on Collective Power

ALL DAY INTERACTIVE ACTIVITIES

Green-Speed Networking

Plato's Restaurant

Walter Issacson Center

11:30 am - 12:30 pm & 2:00 pm - 3:00 pm

Led by Nathan Lombardi and Robert Galinsky

An exciting opportunity for attendees to gather at the World Cafe, Green-Speed Networking, is a meeting format designed to accelerate connections of like-minded green participants.

DIY Human Cards

Led by Robert Galinsky/ Youth Facilitator - Carla Alleyne

Look for our youth delegates bringing *radical human connection* to Earth's Call through the experience of DIY Human Cards. Kick off the conference by diving beyond the shallows into the depths of our individual passions and our shared purpose.

"I am not saying this lightly when I say the world will be a better place if DIY Human Cards become as prevalent as Facebook." ~ Larry Kopald

ROUNDTABLE LUNCH
